

Rooftop Support Systems
by Clearline Technologies

CSE Series

The CSE 5-10 Series is designed for lightweight support of gas and refrigeration pipes at a higher elevation from the roof surface. It is ideal for the support of single piping systems where elevation adjustment is needed. This support is suitable for most types of roofing material or other flat surfaces. The CSE can be ordered with a rubber-lined clamp between 0.25" and 2" diameter.

Available in corrosion resistant stainless steel or aluminum.

- Max Load** 100
- Warranty** 10 years
- Recommended Spacing** Refer to local code
- May qualify for L.E.E.D. credits**

Material

- Base - 100% Recycled Rubber, UV Resistant
- Clamp - Rubber-lined
- Rod - 1/2" electro-zinc plated all threaded rod
