

**ASTM-VERIFIED PROPERTIES OF C-PORT® 100% RECYCLED RUBBER**

C-Port® rooftop supports are manufactured from 100% recycled rubber. Independent laboratory testing conducted by an ANAB accredited ISO/IEC 17025 facility evaluated key performance properties, including hardness, tensile strength, elongation, heat aging resistance, low-temperature brittleness, and compression set.

<b>Test Standard</b>	<b>Property Evaluated</b>
ASTM D2240	Hardness (Shore A)
ASTM D412	Tensile Strength and Elongation
ASTM D573 & D2240	Heat Aged Hardness
ASTM D573 & D412	Heat Aged Tensile Strength and Elongation
ASTM D2137	Low Temperature Brittleness
ASTM D395	Compression Set
